

A 10x10 grayscale plot showing a handwritten digit '7' centered on a black background. The digit is formed by a cluster of white and light gray pixels, with a small black pixel at the center of the digit's body. The plot is a 10x10 grid of pixels, with the digit '7' centered in the middle. The background is black, and the digit is composed of white and light gray pixels. The digit is slightly tilted to the right. The plot is a 10x10 grid of pixels, with the digit '7' centered in the middle. The background is black, and the digit is composed of white and light gray pixels. The digit is slightly tilted to the right.
